

CONTRIBUTIONS

How does eMPF process MPF contributions?

As multiple steps are involved in the contribution process, depending on contribution data submission means and payment method used, it typically takes around **5-10 working days** to complete the above steps and for contribution records to be shown in your account.

To ensure faster contribution processing, we **strongly recommend using electronic submission for contribution data and digital payment methods.**

Simple | Digital | Efficient Manage MPF with ease on eMPF
